The AI-powered code editor

L-6

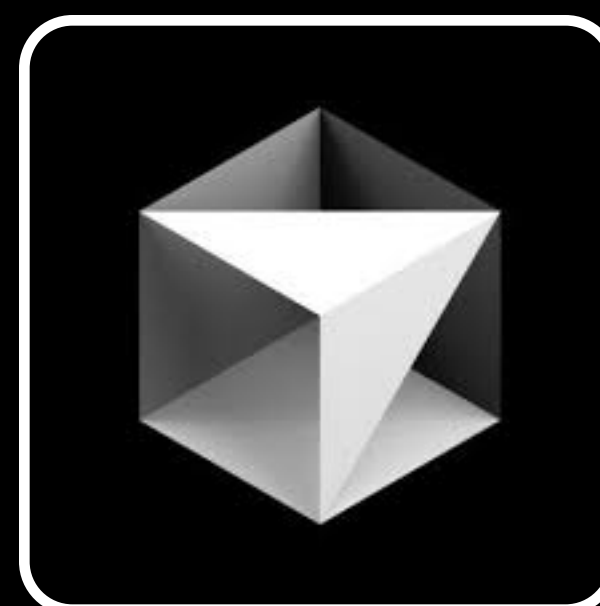

My Tips

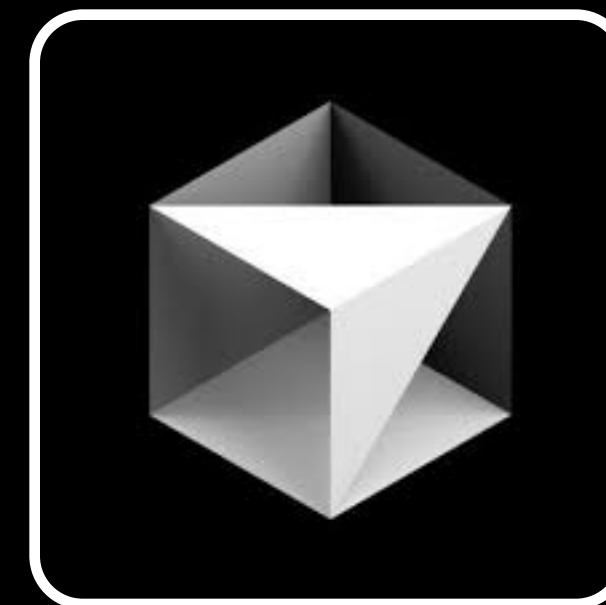

Start with a Plan

- Ask AI for a step-by-step roadmap
- Aligns expectations and reduce rework

Chat Mode

- Agent: For AI-Driven edits & Execution
- Ask: For Q&A and explanations

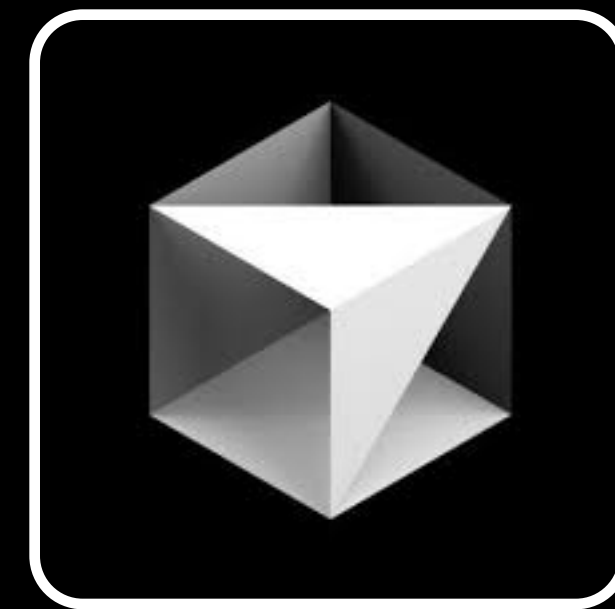

Agent

Ask

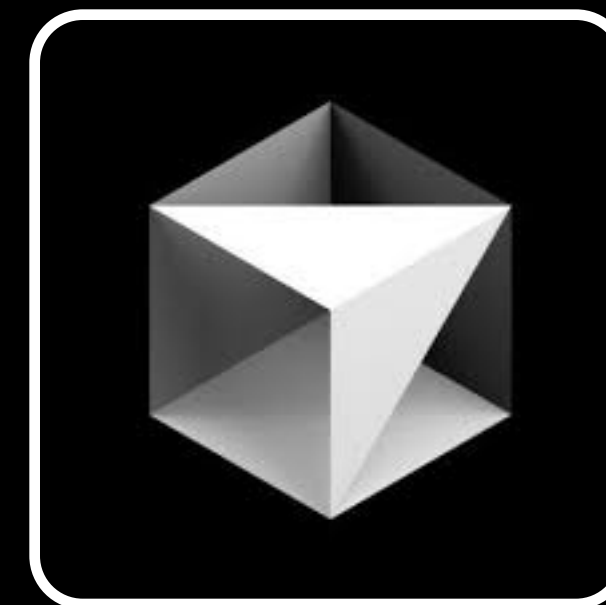

Adding Context before Asking

- AI performs better with the whole picture
- Context = Fewer Retries + Smarter answers

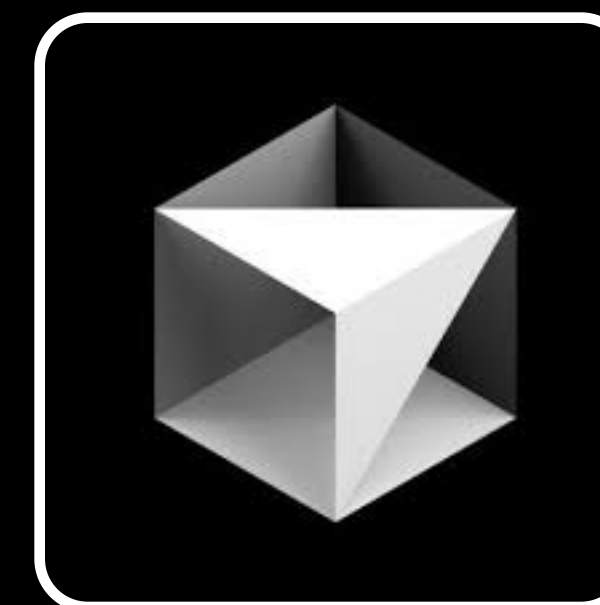

Always Review

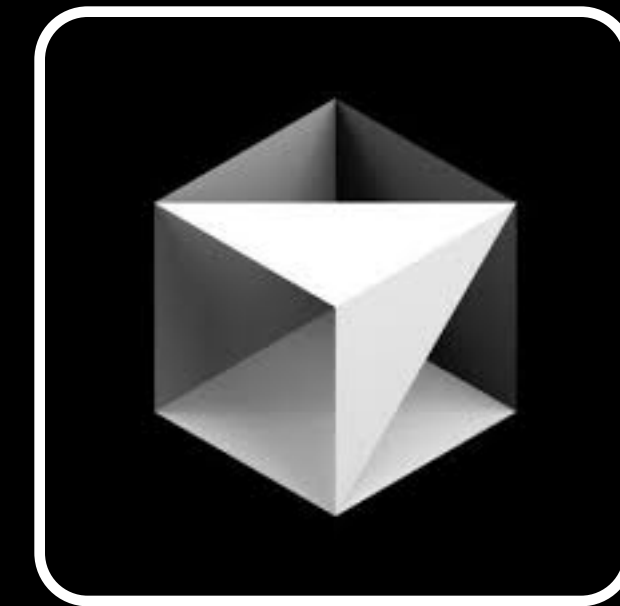

- Review changes before accepting

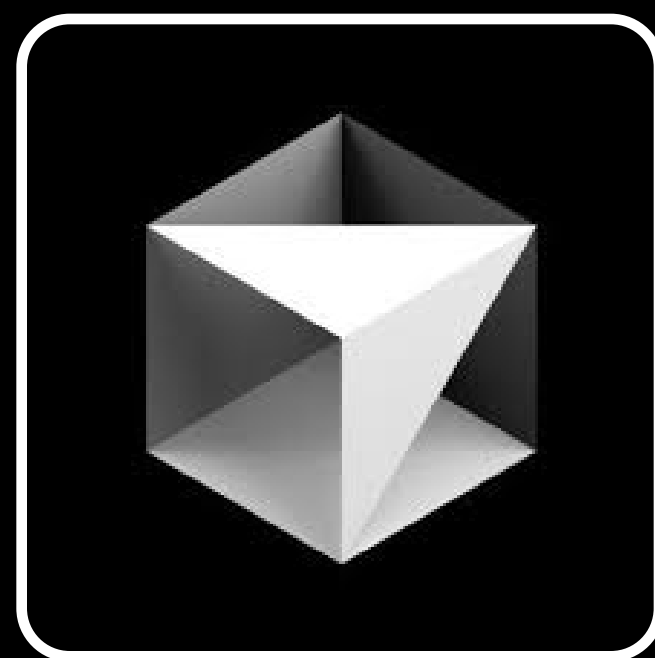

Git Integration from the start

Organize with Chat Tabs

- Multiple chats according to the feature
- One request per prompt = better responses
- Stay in editor with terminal

→ **Auth Feature**
→ **Dashboard UI**
→ **Login Page**
